Administration

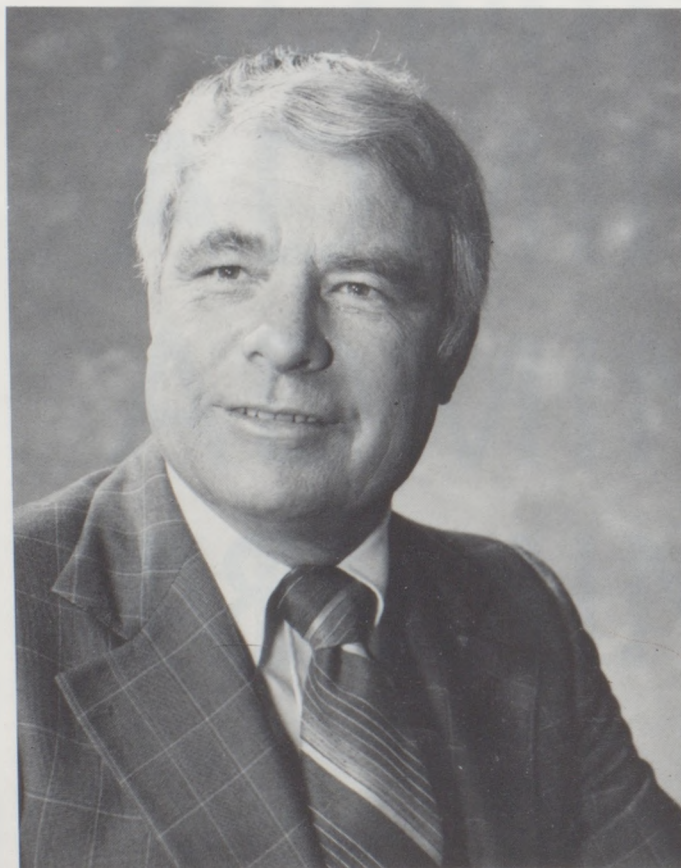

The 1980-81 school year encompasses the end of one decade and the beginning of another. This is one small milestone in the history of our great Country. Education has played an important role in our lives during the 70's and must play an even more important role during the 80's.

The Cameron High School will provide a setting for some of that education. The staff and students must utilize to the fullest the opportunities provided in the educational programs.

The education acquired and the experiences gained during high school are only a small milestone in the lives of young people. The Mystic provides a pictorial record of those experiences. The staff of the Mystic is to be congratulated for a job well done.
