# SADD BEGINS NEW CHAPTER

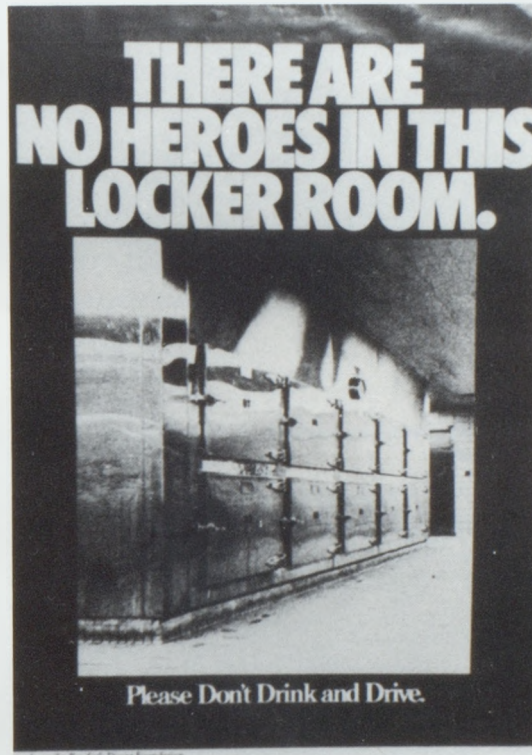

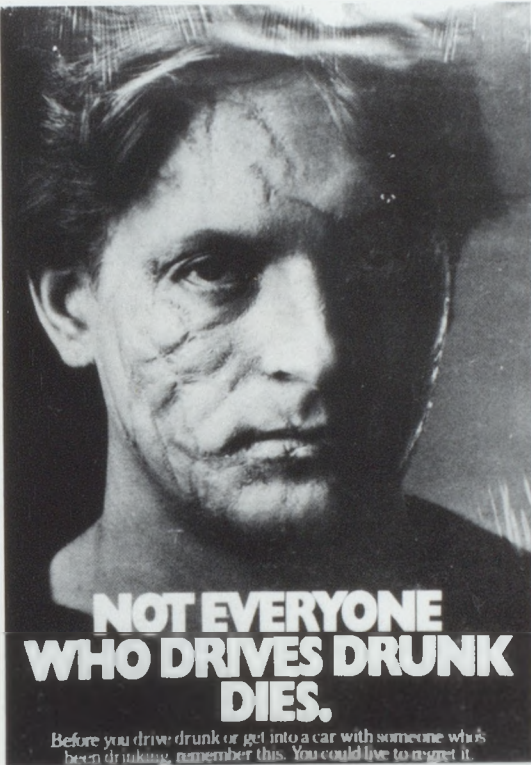

The Cameron Sertoma Club presents \$250 to SADD.

The purpose of the Students Against Driving Drunk program is to organize students from across the country to combat the No. 1 killer of their age group — death due to drinking and driving.

SADD has four goals: To help eliminate the drunk driver and save lives. To alert high school students to the dangers of drinking and driving. To conduct community alcohol awareness programs. To organize counseling programs to help students who may have concerns about alcohol.

In the 16-24 year age group, alcohol is responsible for 8,000 deaths a year and the disfiguring of 40,000 young people. REMEMBER — Friends don't let friends drive drunk!

# Administration

The 1986-87 school year was an important one for public education in the State of Missouri. Several of the major programs of the Excellence in Education Act of 1985 were implemented in Missouri's schools during the past year. Some programs were designed to retain our best teachers in the classroom where they prefer to be and other programs were designed to attract our bright and talented young people into the teaching profession.

Career Ladder programs, minimum salary supplements and Incentive for school Excellence Program were all put into effect and operation during the 1986-87 school year. The first two programs were designed to improve financial opportunities for those in the teaching profession. The Incentive Programs allowed for implementing programs developed by a teacher or teacher groups and designed to improve student learning and to enhance the environment for learning.

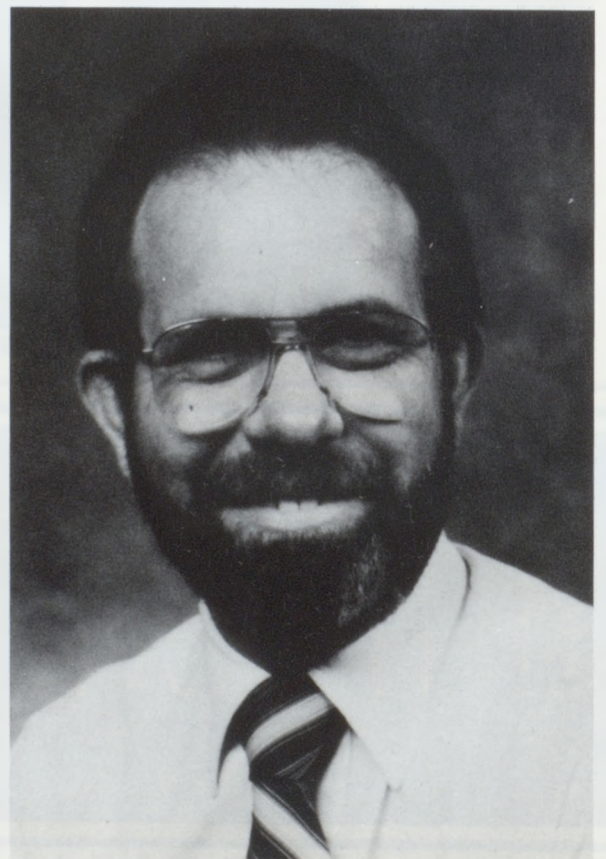

Perhaps the most important part of the excellence Act is the provision for ongoing pupil testing. It is vital to the educational welfare of the state of Missouri to know, on a regular basis, how well our students are doing in our schools. They are the future of our state and country.
